On Boarding & WhatsApp API Setup

Requirements to set up a WhatsApp API

1. Face book Business Manager ID verification

2. New Number for WhatsApp API

To get the Facebook Business Manager ID verification, we need a Face book page, Business License, and Website.

These are the steps to set up WhatsApp API with Neeti Bots.

1. Subscribe to Neeti Bots and register an account.

2. Log in to the Neeti Bots dashboard.

3. Connect WABA and create a new WABA.

4. Connect your Face book Business Manager and connect your number.

5. Complete setting up the WABA

6. Turn on Two Factor authentication from WABA settings in Neeti Bots.

7. Add a payment method to your Face book Business Manager. You can add from WABA settings in Neeti Bots.

8. Done, You have successfully on boarded and set up a WhatsApp API.
